

3D KNITTING

MAKING ONE GARMENT AT A TIME

HOW IT WORKS

ZERO INVENTORY FULFILLMENT

On-demand manufacturing eliminates the need for inventory. Design new products, launch them for sale, and each order is produced and drop-shipped to your end customer in 3-6 days.

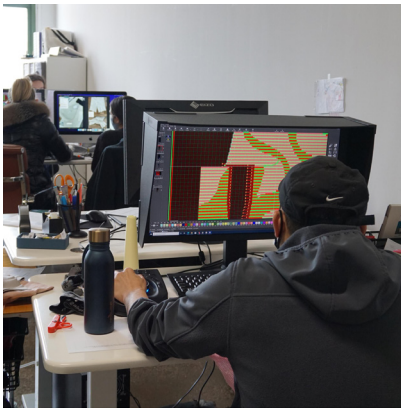

DOMESTIC PRODUCTION VIA AUTOMATED EQUIPMENT

ADVANCED MACHINERY SEAMLESS CONSTRUCTION

3D Knitting machines construct the entire garment on the machine in one complete piece - no cutting, no sewing, no waste. Seamless construction provides the highest quality, durability, comfort and functionality.

ANY FIBER. ANY SILHOUETTE. ANY MARKET CATEGORY.

GARMENT PRODUCED

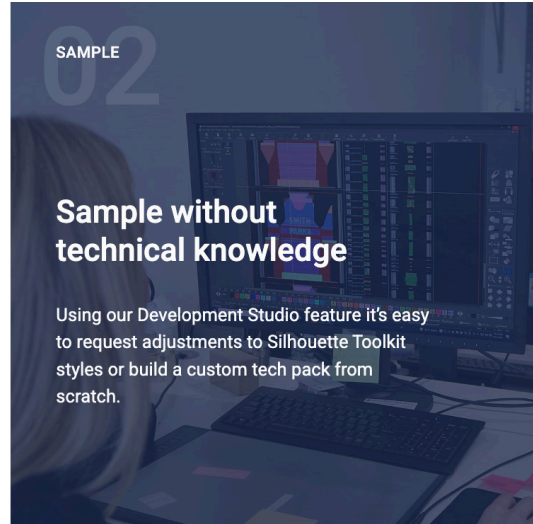

FROM START TO FINISH

DESIGN

Design from a starting point

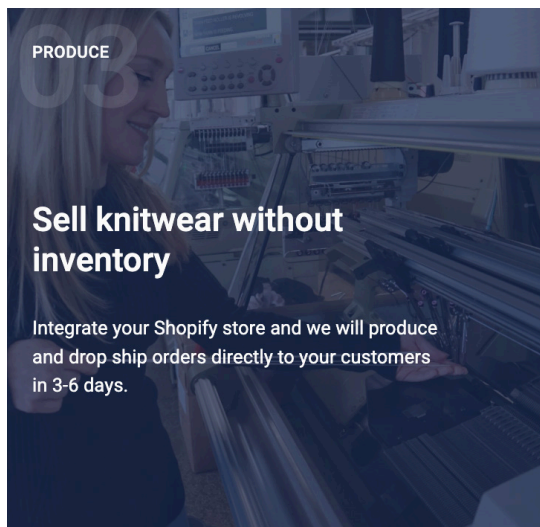

View over 120+ production-ready styles in our Silhouette Toolkit (STK) Library. Produce them as is with your labels or request adjustments to them to create a custom style.

SAMPLE

Sample without technical knowledge

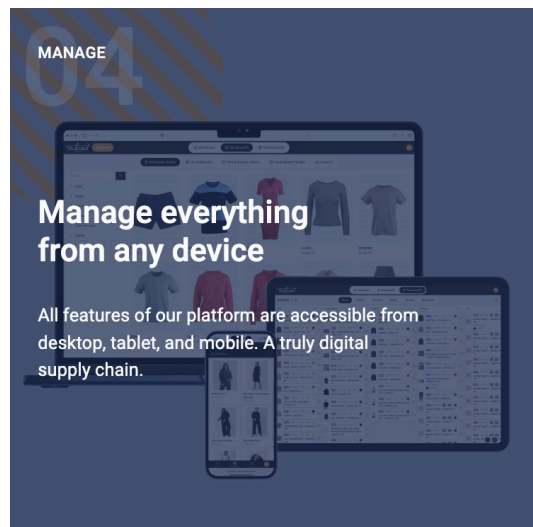

Using our Development Studio feature it's easy to request adjustments to Silhouette Toolkit styles or build a custom tech pack from scratch.

PRODUCE

Sell knitwear without inventory

Integrate your Shopify store and we will produce and drop ship orders directly to your customers in 3-6 days.

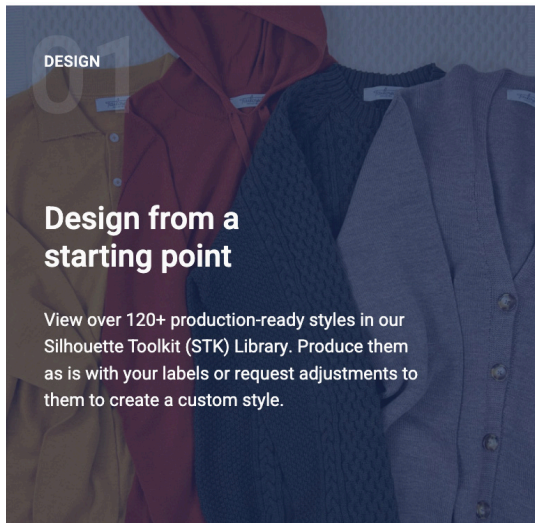

MANAGE

Manage everything from any device

All features of our platform are accessible from desktop, tablet, and mobile. A truly digital supply chain.

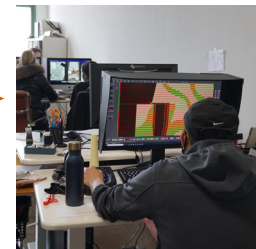

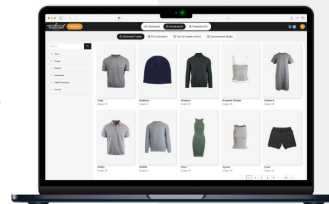

STEP I / DESIGN

Browse our Silhouette Toolkit Library which contains over 120 styles in 4 stock yarn qualities: Merino Wool, Cashmere, Cotton and EcoViscose. Merchandise a small collection and place an order!

Request Adjustments

Select items from our Silhouette Toolkit Library, add them to Development Studio and start customizing your products. Our programming team will review your submission, approve the request and begin developing your custom style!

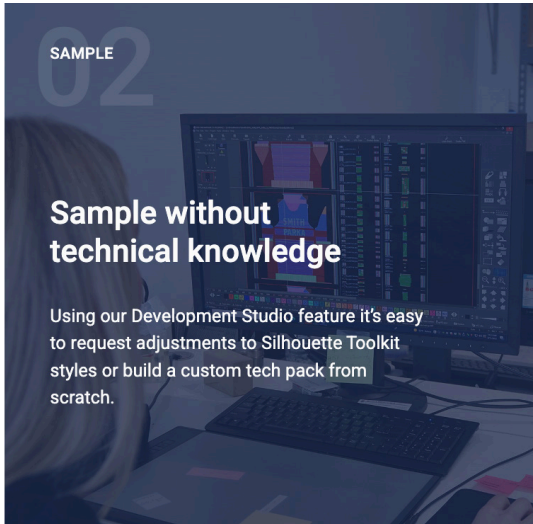

STEP 2/SAMPLES

02
SAMPLE

Sample without technical knowledge

Using our Development Studio feature it's easy to request adjustments to Silhouette Toolkit styles or build a custom tech pack from scratch.

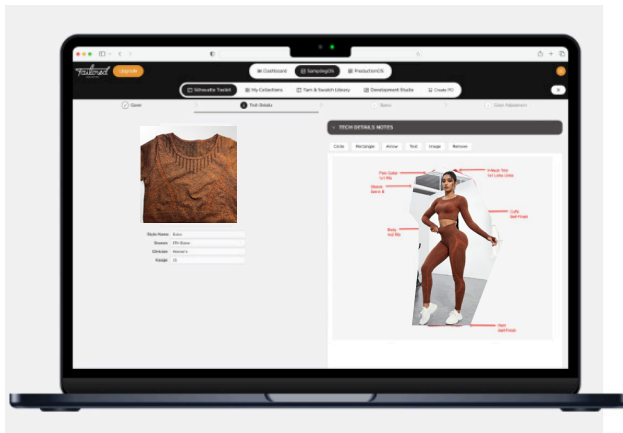

Approve Samples

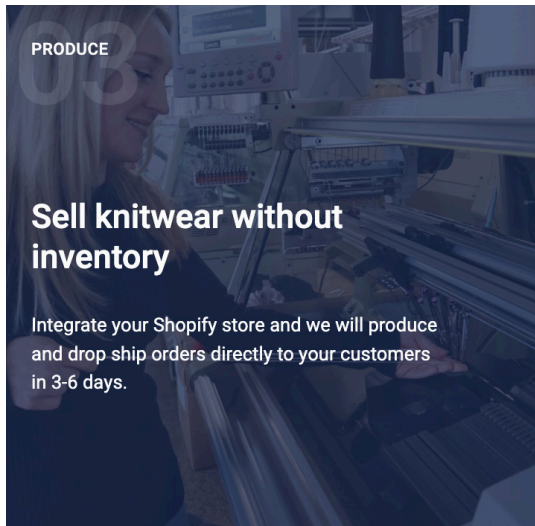

After receiving your custom style, meet with your account manager to approve the style or submit additional adjustments to get it just right. Once approved, we will make a custom style page that will be accessible in the My Collection section of SamplingOS.

Send Trims & Packing Materials

Ship us your trims & packing materials: main labels, size labels, hang tags, tissue paper, mailers and inserts for DTC shipping.

STEP 3/PRODUCTION

Sell knitwear without inventory

Integrate your Shopify store and we will produce and drop ship orders directly to your customers in 3-6 days.

Sell

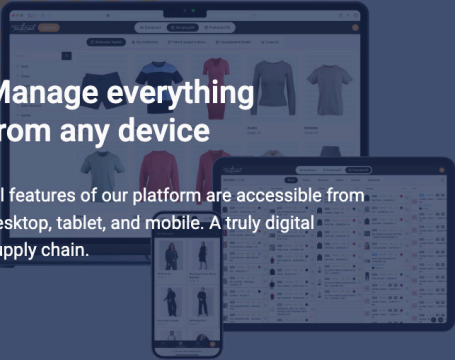

Now it's time to promote your products! The more marketing campaigns, pop-up events, and collaborations the more products you will sell!

Request Fulfillment

Receive orders and request drop-ship fulfillment through the Shopify app, or by placing an order directly on the platform. We will produce and ship your products to your customer within 3-6 business days!

STEP 4/MANAGE SALES
